VOLCANOES NATIONAL PARK

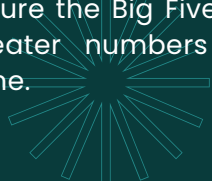

- *In the heart of Central Africa, so high up that you shiver more than you sweat,” wrote the eminent primatologist Dian Fossey, “are great, old volcanoes towering almost 15,000 feet, and nearly covered with rich, green rainforest – the volcanoes.”*
- *The Volcanoes National Park fall on one side of the Virunga Massif, home to mountain gorillas, golden monkeys and much more.*

LET THE ADVENTURES BEGIN

#1 – Akagera National Park

The relatively warm and low-lying plains of Akagera comprise savannah, woodland, wetland and a dozen lakes. In partnership with African Parks, we aim to transform the National Park into a world-class location to experience a safari.

The largely open expanse is ideal for game viewing, and we are taking steps to ensure the Big Five roam the park in greater numbers over the course of time.

#2 – LAKE KIVU

Part of Africa’s Great Rift Valley, Lake Kivu in the west of Rwanda. It is surrounded by magnificent mountains and has deep emerald green waters covering a surface area of 2,700 km². It is Rwanda’s largest lake and the sixth largest in

#3 – Culture & Heritage

Warm and friendly, Rwandans are also respectful, thoughtful and committed to the idea of progress, starting at the grass roots and running all the way to the top.

#4 – CANOPY WALK

Suspended above a ravine in the lush montane rainforest of [Nyungwe National Park](#), the canopy walkway provides an exhilarating perspective on the ancient treetops and wildlife.

The 160m long and 70m high suspension bridge is accessible as part of a guided tour along the Igishigishigi trail, or to those [hiking the](#) Imbaraga or Umuyove trails.
